

Useful Maths Websites for Parents / Carers

Maths is Fun

www.mathsisfun.com

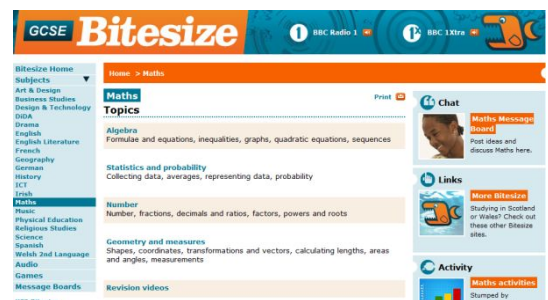

Easy to search for explanations and worked examples. 'Your Turn' assessment questions available for most topics.

BBC Bitesize

<http://www.bbc.co.uk/bitesize/>

KS 3 and GCSE topics covered in plain English with worked examples. Self-assessment tests available in most sections.

My Maths

www.mymaths.co.uk

This website provides a comprehensive menu of structured lessons, self-marking homework and review tasks. A good selection of interactive whiteboard activities and maths games are available. Lessons can be searched by NCL, Foundation or Higher tier topics.

Westhaven / square

eMaths

<http://www.emaths.co.uk>

A large selection of resources and investigations for teachers and pupils. SATS and GCSE past papers are available to download from the students section.

Mr Barton Maths

www.mrbartonmaths.com

An extensive library of teaching resources, including ready-made Tarsia activities. Links to 'the best maths websites in the world', video tutorials and a link to the site from where you can download the Tarsia jigsaw software (<http://www.mmlsoft.com/index.php/products/tarsia>).

Pupil pages provide a host of reference material and podcasts, including a 374 e-book (pdf file) containing everything you need to know about GCSE maths up to A* grade. Download and view on screen rather than print it out! Easy to search using Adobe reader.

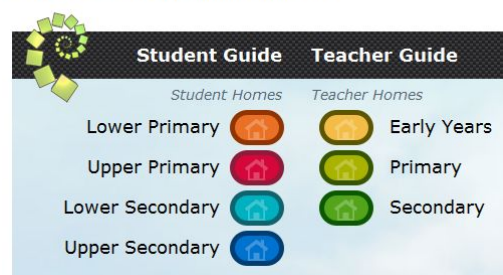

NRICH

www.nrich.maths.org

A free resource bank of rich mathematical tasks including teaching notes and solutions, designed to get pupils applying and extending their reasoning skills.

NRICH enriching mathematics

Subtangent

<http://www.subtangent.com>

A collection of investigations, printable resources, links and online maths games.

Transum

<http://www.transum.org>

Amongst other resources, has a useful 'starter of the day' page.

Count On

<http://www.counton.org/resources>

Amongst a host of resources, this site contains downloadable sets of 'Summer Numeracy' activity worksheets (originally designed to bridge the transition from KS 2 to KS3) that will help build confidence in pupils performing below national expectations.

Also includes comprehensive lesson plans and guidance notes.

Classroom Timers
